ALREADY FEBRUARY...

It's our February issue, so we once again are celebrating *Black History Month,* showcasing the comics and graphic novels that feature black main characters, that were created by African-American creators, or which dramatize the black experience. As always, we have some great backlist and new titles being offered this month, and we have some suggested titles for you to check out on page 214.

Elsewhere, our *Indie Edge* interview profiles writer Al Madrigal, who you may know from his time on *The Daily Show with John Stewart.* He's currently writing a bunch of TV pilots, but more importantly, a new Latinx superhero series for AWA titled, Primos. It looks "primo" and I'll be checking it out when it hits my local comics shop.

Finally, with *FREE COMIC BOOK DAY 2022* once again scheduled for the first Saturday in May, the 7th, we're happy to reveal to you this year's artist for our FCBD Commemorative T-Shirt and Poster. Just turn to page 37 for the reveal!

That's all I've got for this month. Thanks for picking up this issue and joining us for another month of cool comics and mighty merchandise! Until next month!

7 Comics Sell for Over $1M in 2021; Record Price Set Twice

In 2021, seven different comic books sold for over $1 million. And not just seven books, five different titles in seven different grades. If that wasn't impressive enough, the world record for most valuable comic book was set twice in 2021.

First up was *Batman* #1, noted for the debuts of the Joker and Catwoman, and for being the Dark Knight's first titular comic. A high grade CGC 9.4 copy sold for $2.22 million at Heritage Auctions in January. This was the first time a copy of *Batman* #1 sold for over $1 million.

Batman #1 grabbed another seven-figure sale when ComicConnect sold a CGC 8.0 copy for $1.2 million in April 2021.

Also in April 2021, ComicConnect brokered a deal for *Action Comics* #1 CGC 8.5 featuring Superman's first appearance for $3.25 million. That sale toppled the record for highest price paid for a comic, which had stood for over six years. The previous record was also set by *Action Comics* #1, a CGC 9.0 copy, that realized $3.2 million in an eBay auction in August 2014.

Proving the marketability of Batman's introduction, a mid-grade CGC 5.0 copy of *Detective Comics* #27 hammered for $1.125 million at Heritage in June 2021. This was the second copy to sell for over $1 million, following 11 years after a CGC 8.0 copy brought $1.075 million at Heritage in 2010.

A high grade CGC 9.6 of Spider-Man's first appearance in *Amazing Fantasy* #15 set a new record for highest price paid for a comic when it cleared $3.6 million at Heritage in September. It trounced the previous top sale for this issue, which was also a CGC 9.6 that hit $1.1 million in 2011.

The final two books to fetch $1 million in 2021 were both achieved by ComicConnect. First, an *Action Comics* #1 in the lower grade of CGC 3.0 achieved $1.6 million. A few days later, they sold a *Superman* #1 CGC 7.0 for $2.6 million – the first time the Man of Steel's self-titled book surpassed $1 million.

This was the first time that seven books crossed the $1 million mark in a single year. When Heritage's November 2020 sale of Detective Comics #27 CGC 7.0 for $1.5 million is added in, 8 of the 16 highest prices paid for comics were achieved in the last year.

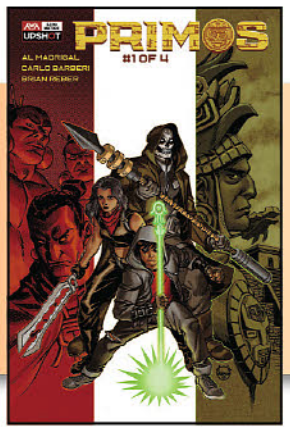
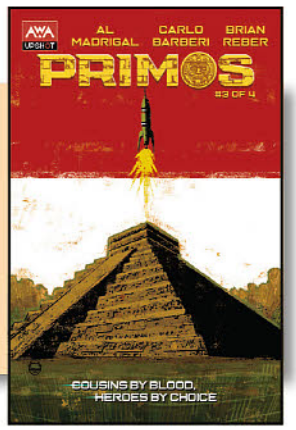
Please tell us a bit about yourself!

Let's see, I started as a standup comedian in San Francisco, California with zero interest in doing anything else, but then quickly found myself acting, writing, and producing to the point where now almost all I do is write for television. Which I'm great with! Being a road standup comedian is really fun to do for a while, but I became horrible at managing drunks. I would much rather spend time with my family... who heckle me slightly less. Oh yeah, and I'm also the writer of AWA's Latinx superhero series, *PRIMOS*!

What are your favorite projects you've contributed to over the past decade?

I feel very fortunate to have a weird eclectic resume and a variety of creative interests. While at *The Daily Show with Jon Stewart*, I was able to work with some extremely talented people and actually make a difference. Acting is also something I thoroughly enjoy, especially after making the jump to movies in *Night School*, *The Way Back*, and the upcoming *Morbius*. But the thing that has been the most satisfying is watching *All Things Comedy*, the small loose collection of podcasts I banded together in 2012, grow into the world's number one comedy podcast network.





What are you currently working on?

In addition to my work on AWA's *Primos,* I'm writing an ABC TV series, *Guerillas,* and a half-hour comedy for FOX called *Accidentes,* waiting on word whether those will be made into TV pilots while developing several other projects with CBS Studios. Most importantly, I'm working on my health after really letting myself go during Covid.

What fun titles are you reading?

Maniac of New York (Aftershock), from my friend Elliott Kalan from *The Daily Show with Jon Stewart*. It's a great commentary on how society can adapt to horrible situations and with the way we've responded to the Covid pandemic, it's more relevant than ever. *Something is Killing the Children*, by James Tynion IV (BOOM! Studios). Amazing characters from one of the best in business. Love all the intrigue and potential for future stories. And *Once & Future* by Kieron Gillen (BOOM! Studios). Old lady-monster hunter. USER'S GUIDE

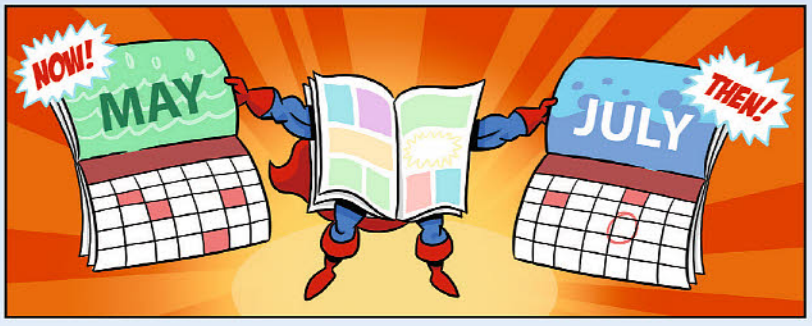
There's *a lot* of awesome comics and products to look through in ***PREVIEWS***. "A lot" might be a bit of an understatement, as each month's catalog is filled with hundreds and *hundreds* of pages of upcoming comics and related merchandise! It can be easy to accidentally overlook a new series you've been dying to read or a figure you've been pining to add to your shelf when there's so many things to browse. That's why we've put together this guide to help you learn how to use ***PREVIEWS*** like a pro to order the awesome titles and products you want!

Learn How to Use *PREVIEWS* to Order From Your Comic Shop!

WHAT EXACTLY IS *PREVIEWS*?

PREVIEWS is part catalog, part magazine (we call it a *Mag-a-log*!) of monthly listings of all of the upcoming comic titles and related products from your favorite publishers and manufacturers in one convenient place. And don't worry—***PREVIEWS*** is organized by publisher and product type (and color-coded to boot!), to make it easy to find and flip to the section or items you're looking for. Each item listing has the information you need, such as format, size, page count, price, release date, stock or item code, and descriptive text, and nearly every listing is accompanied by artwork or images.



The most important aspect of ***PREVIEWS*** to remember is that **items solicited in the catalog are anticipated to ship 2-3 months later (or more)**. For example, if you found a comic you wanted in the **May** issue of ***PREVIEWS***, you can expect to see it turn up in your local comic shop in **July**. The catalog can be a great resource for figuring out where your favorite comic series is going, or for discovering new ones that you'll want to add to your library—not to mention all the other awesome products!

HOW DO I ORDER FROM *PREVIEWS*?

When you've picked out all of the items you want, you can fill out the **Short Order Form** included in your copy of ***PREVIEWS*** and submit it to your local comic shop. You can also ask your friendly neighborhood retailer about obtaining a **Customer Order Form**, a booklet that contains a complete listing of all the items made available for that month. These forms make pre-ordering your comics and products a breeze and can help your local comic shop decide what to stock in the store for other customers, too! Be sure to also ask your retailer about their **pullbox or subscription service**. Once you've submitted your order, you can sit back and relax, or try to contain your excitement until your comics and merchandise arrive!

February 2022 | Edited By: **Allyn Gibson** | editor@PREVIEWSworld.com

IMAGE COMICS CELEBRATES ITS 30TH-ANNIVERSARY IN 2022 WITH THE *IMAGE!* ANTHOLOGY

Seven of the best-selling and most popular comic creators of the early 90s — Rob Liefeld, Todd McFarlane, Jim Lee, Marc Silvestri, Eric Larsen, Jim Valentino, and Whilce Portacio — took a stand for creative rights and freedom by forming Image Comics in February 1992. Thirty years later, Image Comics is a force in the comics industry, publishing far more than super-hero comics from comics' biggest names and new stars. In 2022 Image Comics celebrates its anniversary and its rich diversity of creators and concepts with the twelve issue *IMAGE!* anthology. With short stories and serials, new concepts and characters, and best-selling creators, *IMAGE!* encapsulates the freedom that has been the hallmark of Image Comics for the last thirty years.

Happy anniversary, Image Comics! Here's to another thirty years!

TITAN COMICS

INTERVIEW WITH AWARD-WINNING AUTHOR OF NEW DOCTOR WHO: SPECIAL 2022 COMIC!

AN EPIC NEW DOCTOR WHO STORY WRITTEN BY EISNER AWARD-WINNING WRITER DAN SLOTT sees companion Martha Jones captured by the insatiable Pyrometh. Get to witness the incredible adventures of the Tenth Doctor like never before! We caught up with DAN to talk all things Who!

DAN SLOTT

Hey Dan! Super great to have you here! Tell us a little bit about yourself, what have you worked on before?
D: Great to be here. Most people know me from my 10+ year run on *Amazing Spider-Man*, but I've worked on titles like *She-Hulk*, *Mighty Avengers*, *Batman Adventures*, and a shamelessly *Doctor Who*-like run of *Silver Surfer*. Right now I'm Marvel's current writer for *Fantastic Four*.

Wow, you have been busy! So tell us, how were you introduced to the real *Doctor Who*, was there a particular era or Doctor that enticed you to the Whoniverse?
D: I got to see *Doctor Who* whenever my family spent summers at my Grandma's. It was showing on PBS in her area. I got to see a lot of Seasons 12, 13, and 14 with the Fourth Doctor, Sarah Jane, Harry, and then Leela. In 1980, my family moved to London. I got to watch every single episode of *The Leisure Hive* series, the second they aired. And when I should've been doing my homework, I was reading all of the Target novelizations of all the *Doctor Who* adventures I'd missed all the way back to *An Unearthly Child*.

So it's been a part of your life for a long time then. How did you feel when you found out you were going to be the writer for this awesome special edition?
D: Ecstatic! Anyone who knows me knows that *Doctor Who* is my favorite TV show of all-time. For me, along with Spider-Man, Batman, and Indiana Jones, the Doctor is one of my favorite characters in all of fiction.

What were the main things you want to bring to the Whoniverse?
D: Honestly? Everything! I'm treating this like this is my one and only shot to write for the Doctor. Everything, including the kitchen sink, is going into this one! Time travel, space travel, monsters from both the new and classic eras, and all-new baddies as well! This special will really be a tribute to the RTD era, as we'll see a lead feature with the Tenth Doctor and Martha, and a back-up tale with the Ninth Doctor and Rose.

And how would you describe your writing style?
D: Geeky, silly, and with a healthy amount of schmaltz. Google it.

On your social media there are lots of pictures of you with many of the Doctors. How did you pull that off? And are there any Doctors you haven't met yet?
D: It's a sure fire way to get me to attend a comic con. Whenever I'm invited to a show I ask if there'll be anyone from *Doctor Who* there and if so, can I please meet them? One of the nice surprises has been how lovely everyone is in person. All the actors, cast, and crew are just the nicest people and the best possible ambassadors for the show. For now, the only Doctors I haven't been lucky enough to meet yet are Sylvester McCoy, Paul McGann, and Jo Martin. So fingers crossed!

Lastly, who or what is your favourite *Doctor Who* villain?
D: The BBC. Out of everyone the Doctor's faced, they're the only ones powerful enough to hold him in limbo for 7 years-- and then 9 more! Not even Davros could pull that off! That said, thanks for bringing the Doctor back, BBC! Love ya!

2022 Commemorative Artist

TYLER KIRKHAM

Like many comic book creators, **Tyler Kirkham** began as a fan. Reading Image Comics as a teenager in the 90s, Kirkham honed his craft as an artist, making small sales to local newspapers in Utah, showing off his portfolio, and eventually landing his first professional comics work on *The Gift*. Kirkham's talent attracted the attention of Marc Silvestri and Top Cow Studios, where he worked on *Strykeforce*, *Witchblade*, and *Tomb Raider*. Kirkham moved on to projects like *Ultimate Fantastic Four*, *X-Men: Phoenix Warsong*, *New Avengers/Transformers*, *Green Lantern Corps*, *Deathstroke*, as well as video game concept artwork and covers. Kirkham brings dynamic energy and a fan's passion to his artwork, and both qualities come through with his commemorative art piece for **Free Comic Book Day 2022**!

WRITERS GERRY DUGGAN & BRIAN POSEHN
ARTIST / COVER SCOTT KOBLISH

APRIL 20	48 PAGES SELF-COVER	FC	M	$4.99
ACTION & ADVENTURE, HUMOR				SKYBOUND

BRIAN POSEHN, GERRY DUGGAN & SCOTT KOBLISH reform Voltron (metaphorically only) from their days on ***Deadpool*** (also *not* appearing) to tell a true story and lost chapter from our nation's sad and failed war on drugs.

The year is 1985. The First Lady decides to crush Northern California cannabis farmers and deploys the biggest tool in the armed forces: Scotch McTiernan (collectible first of many hilarious appearances). "If it weeds...we can kill it." Scotch puts his boots on the ground in Humboldt and does what he does best—but what happens when he gets high for the first time?

This one-shot has it all: laughs, tears, heart, action—plus, an activity page! A portion of the proceeds from this comic will be donated to organizations dedicated to helping casualties of America's immoral drug war.

COLLECTS PRIMORDIAL #1-6

Mind-bending sci-fi and Cold War thriller collide in this 6-issue series by the bestselling, Eisner-winning creative team behind **GIDEON FALLS**! In 1957, the USSR made history by launching a dog named Laika into Earth's orbit. Two years later, the USA responded with two monkeys, Able and Baker. These animals never returned. But unbeknownst to everyone, they did not die in orbit...they were taken. And now they are coming home.

Select praise for PRIMORDIAL:

"...Ambitious and innovative comics storytelling..." —***ComicBook.com***

"Has plenty to offer to fans of American history, science fiction, and good storytelling." —***Comic Book Resources***

"All in all, sci-fi fans, **LEMIRE** fans, **SORRENTINO** fans, Image fans, this is a must buy." —***Black Nerd Problems***

"A classic Cold War thriller in the making. But it's also far more ambitious than that, with a sci-fi storyline at its heart and visuals evoking ***2001: A Space Odyssey***... Part John le Carré and another part Arthur C. Clarke." —***Comicon.com***

"For a creative team this brilliant, it really means something to say that they are at the top of their game. But sure enough...some of their best work!" —***Monkeys Fighting Robots***

He went on a crusade that matched, and sometimes even surpassed, his past accomplishments. But dismembered body parts started washing up in a concentrated area of Lake Erie Sound. Headless torsos that left no clues to their identity or reason for death. Eliot Ness and his colorful gang of The Unknowns chased this killer through the underbelly of Cleveland for years. RON MARZ & ANDY LANNING TALK THE NEXT BIG PROJECT SUPERPOWERS SAGA!

Ron and Andy, the Project Superpowers characters have been through all manner of turmoil. Whether it goes back to their Golden Age WWII roots, their modern adventures, or now you guys are taking them thirty years in the future. What's your elevator pitch for fans on this exciting new chapter?

Marz: The world of our story is in rough shape. The United States has literally fractured into regional powers, some of them very much at odds with each other. Into that landscape we introduce a literal John Doe, a character who wakes up having no idea who he is, or how he got here. We follow his journey through this shattered America, as he tries to discover his own identity, and the true identity of America itself.

Lanning: For anyone who likes a good old-fashioned tale of classic Golden Age heroes cast into a dark dystopian future world where the country has literally fallen apart around them and malevolent forces have risen to take control of the divided states with a main character who's got amnesia and must undertake a perilous journey across the dangerous, fractured landscape... then this one's for you!

You two are no strangers to apocalyptic team-up adventures, following the rollercoaster ride of DC's big crossover Endless Winter. What kind of cataclysmic environment are our heroes facing in Fractured States?

Marz: Environmental collapse, climate crisis, a pandemic ... you name it, we've got it!

Lanning: What Ron said! We just looked around at what we're facing in the world today, took it up a notch or two and we had a very believable apocalyptic landscape to play with. Which, now I think about it, is pretty bloody scary!

There are countless characters under the Project Superpowers umbrella. Which ones should fans expect this series to focus on the most?

Marz: Our main character is ... well, we can't tell you, that would ruin the surprise. We'll be getting glimpses of most of the Project Superpowers stalwarts, especially the patriotic heroes. We also show a very different version of Black Terror, which has grown from a singular character into an entire guerilla group. Of course, that does lead to the question of where the original Black Terror might be...

Lanning: Because the story focuses on the chaos that the United States has fallen into, the patriotic heroes, like The Flag, Man of War, etc feature. But we show other Project Superpowers mainstays too and hint at their fates in this sinister future, but it would be giving away the surprises if we tell more!

It seems that this arc and characters are reflecting certain real world narratives and realities right now, as much good genre fiction often does. What inspired you guys to tap into some of those influences for this series?

Marz: When we were digging into the previous Project Superpowers material to see what kind of story fodder we could find, one of the things we noticed was the plethora of patriotic characters. Obviously, that makes complete sense, as many of them date to the 1940s, when America was fighting real-world fascism. That seemed like a viable avenue to explore, since America is dealing with its own fascist impulses right now. It allows us to dig into larger themes like the American dream, and what it means to be American. As you said, it's all presented in the guise of a superhero story, but we wanted to make

final covers may vary. all art pending licensor approval. all properties TM & © their respective owners.

sure we had underpinnings of some meaty stuff in there.

Lanning: Against the backdrop of the divided nation that Ron explains, we also wanted to use current world issues facing us today as springboards into a suitably dramatic and compelling futurescape: the impact of environmental damage, climate change, global pandemics, political division and a state of fearful paranoia are all great themes to tell a high adventure against as they give our heroes overwhelming obstacles to overcome. By creating such a dark and foreboding world for them to struggle against, it makes their heroism and resilience that much brighter in comparison. Because most of these Golden Age heroes were created during the war against the backdrop of the Nazis marauding across Europe and the Axis threat to the world, they work best when set against a vast scale that's almost operatic in scope. We've attempted to put them into a world where they must draw upon all their powers and heroism to win out.

For fans that may be interested, how would you two describe your collaboration as co-writers? And how has it been working with the rest of the team, including artist Emilio Utrera?

Marz: I think Andy and I have very much the same story sense, so it's a pretty seamless collaborative process. We kick around story ideas, pass notes back and forth, and then usually Andy takes a first pass at the plot, I kick in some notes, and then I'll usually take the first dialogue pass, get notes from Andy, and then finalize the lettering script. We always end up with a story that's very much both of us. Emilio has been a real revelation, as we had not worked together before. He's doing very dynamic work, but the storytelling always comes first.

Lanning: I think Ron has summarized the nuts and bolts well but that sort of division of labour only happens after an intense and thorough planning session. This consists of Ron and I hopping on a Skype call. After an hour or so of comparing new comics, graphic novels and art books and catching up on the latest TV shows or movies we've seen, then picking over the latest things that have outraged or delighted us in the newsfeeds or on Twitter, and finally setting the world to rights before sharing a new recipe for a curry or cocktail we will find... we have about 5 minutes to figure out an idea for the latest issue and then things REALLY get started!

Emilio is a star in the making, he has great narrative chops and is producing pages like a machine! And, as he settles into the story, he's getting better with every page, which is always awesome to see as a writer as you become more comfortable throwing wilder and more ambitious elements into the story knowing he will knock them out the park!

JOHN CARTER'S CREATORS MERGE MINDS AS THEY DEPICT THE CLASH OF EARTH AND MARS

Chuck and George, what are your guys' connections toward the mythos of Barsoom, John Carter and Dejah Thoris? What draws you to this world and characters?

Brown: I've always been a huge fan of sci-fi and adventure. Like many of us, as a kid I was obsessed with Mars and the other planets in our solar system. Barsoom has such amazing characters and backstories. So it's a huge opportunity for George and I to play in this world.

Kambadais: I remember reading the John Carter books as a kid. They were difficult to come by here in Greece. I found these really old comic books in a second hand bookstore during summer holidays one year and I spent my whole vacation reading them and I fell in love with the universe. The whole retro-futuristic aesthetic is something I find very appealing. The idea of a world that is, at the same time, so distant yet so familiar is very exciting to me.

John Carter is very much a character that feels connected to his early 20th century creation, as well as his Civil War era in-story origins. Yet the world of Barsoom created by Edgar Rice Burroughs created a third signature environment. You're now bringing him forward in time closer to when the character was created. What makes the character fun to pull into other eras and environments?

Brown: It's going to be so fun to really explore John Carter's past accomplishments and mistakes. We want to tell a great story and it will be somewhat of a man out of his element and time. Barsoom has a lot of strange magic and technology that isn't even fully understood by the characters. So these characters can and will be placed in some bizarre environment because of this magic.

In this story, Earth and Mars are both being affected by a mysterious asteroid. What kind of chaos is set to ensue as these two vastly different worlds undergo this chaos?

Brown: This will be unlike any John Carter story you've read. Let's just say Barsoom will not be the only strange planet John will encounter. John Carter and our villain will both be fish out of water. Two opposing forces trying to survive and adapt in strange worlds with dangerous aliens and other creatures.

George, countless talented artists have depicted the world and characters of Barsoom before, in comics, book covers, and even on film. How are you approaching this series and are you bringing in any interesting influences to your art style or designs?

Kambadais: I really have some big shoes to fill. Many great artists have worked on John Carter before me. It's very important to me to try and approach this story in a way that the readers find familiar but at the same time is unique and fitting to this particular story. My main influences will be from animated movies and superhero comic books since I'll be trying to bring a lot of energy to my pages.

Chuck, many fans will be familiar with your work via Bitter Root or Black Manta, both of which artfully weave in real world concerns and commentary. How can we expect to see some of that flavor finds its way to your addition to the saga of Barsoom?

Brown: John Carter won't be too far removed from the events of the Civil War. Of course, I can't address the Civil War without addressing slavery. These books were written in the early 1900s. A time when some views and ideas would be unacceptable today. I'm not going to gloss over or ignore any of those influences.

I also enjoy diving deep into the relationships of characters. I plan on putting John and Dejah's love to the test. With all my work, expect lots of action, explosions, and all the profanity that Dynamite will let me get away with!

RED SONJA & THE KNIGHTS OF THE ROUND..? ABNETT & MIRACOLO INTRODUCE THEIR NEW FABLE

Dan, you're no stranger to writing about the legends of King Arthur Pendragon, going back to your work on Knights of Pendragon for Marvel. What's it like to bring Red Sonja into this set of legends?

Abnett: I think it's great, and it certainly appeals to me. As you say, I have form in that area :) More than anything, I think it's a chance to showcase Sonja in a slightly different world, even though it's still one of high fantasy and utterly appropriate to her. This is a new quest for her, a new set of adventures, taking her on an odyssey through dark age myths and legends (and not just Arthurian ones). So it moves her away from her traditional Hyborian lands, into a new realm where she can encounter things that might not have fit comfortably into her original setting. It's a great chance to showcase her in a fantasy world in a way we've never seen in a Red Sonja book before.

What pieces of the Arthurian mythos and major characters can readers expect to see interacting — or fighting — with Sonja in this series?

Abnett: All sorts of things! And not just Arthurian myths, either. It's worth saying that this isn't just an arbitrary shift - just taking her and dumping her in a different fantasy realm. The shift is all part of the metastory: she's been magically sent into these new lands to perform a quest, and that ties very much into Arthurian lore, but she'll meet many other elements of folklore on the way. This is not her taking part in a retelling of the classic Round Table story - this is her entering the world of Arthur in the aftermath of the classic tale of Arthur and his knights, and exploring that world. And we're giving it a very cool, authentic and realistic edge too. Forget the glossy Hollywood version, this is a grim and savage vision of what it would have been like if it had really happened.

One of the characters we'll get to see a lot of is the fabled Green Knight. Depictions of this mysterious character seem to be in the zeitgeist right now, such as a major acclaimed film this year. For those less familiar, how would you describe the Green Knight, and what makes him so intriguing?

Abnett: The Green Knight of myth has many aspects, but he's often seen as a figure deeply connected with the dark and primordial side of nature. He is one of the key spirits of the ancient woodlands, and you do NOT want to get on the wrong side of him. He's also got a big secret that we'll unfold as we go along.

At its core, this series — previous working title "Red Sonja: Chainmail" — is calling back to the Hyrkanian heroine's original appearance from Conan the Barbarian #23 as drawn by Barry Windsor — Smith, prior to her "chainmail bikini" look that is seen in most stories. What is it about this character that makes it fun to try on different looks across different tales? And for Alessandro, how fun is that from the artist perspective?

Abnett: The chainmail shirt, inspired by that classic story, is the magical artefact at the heart of this saga. It's a great call back to those earlier stories, and it defines her look for this particular book. This is the Immortal Red Sonja, warrior of myth and legend entering a haunted wilderness and leaving her familiar homelands behind. And Alessandro's doing a fantastic job of realising this new world.

Miracolo: CIAOOO! I love Barry Windsor — Smith and for me this opportunity is really fantastic. I enjoy being able to create my own twist on the concept and following in the footsteps of so many legends. My hope is to not blight the She — Devil for her fans. Haha.

Alessandro, can you describe your artistic approach to this series? How are you attempting to meld the aesthetics of Red Sonja's Hyborian Age alongside the more traditionally known European medieval high fantasy?

Miracolo: Great question. The Hyborian age is very vast with so many diverse aesthetics — wastelands, mysterious cities, sorcerer kings, barbarians, etc. Luckily I'm a fan of the sword and sorcery genre, but talking to Dan and his idea of bringing Red Sonja into medieval fantasy, it's fantastic. I love those tales combining two fantastic worlds — it's really stimulating. I am watching films and reading stories that can give me ideas for my art.

THUNDEROUS TRADE PAPERBACK

FC | 96 pages | 6.5x10 | Action/Adventure, Fantasy | $16.99 | ages 8-12 | 4/13

writer: M. L. Smoker and Natalie Peeterse
artist: Dale Deforest
cover: Oriol Vidal

Aiyana is a Native American girl living with her grandmother in Colorado where she often finds herself butting heads with her grandmother's traditional teachings and cultural stories. One day during a class field trip to the cliff dwellings of Mesa Verde, Aiyana steps away from her friends to take a quick selfie, unaware of a storm brewing that's creating havoc across the terrain as she is more interested in attracting new followers than the historical significance or the change in the weather. When she finally looks away from her phone, she realizes she's entirely alone amongst the stones and bricks, and the world around her is a very different place now . . . She's been transported into the Spirit World, parallel to her own, both hidden and blind to the world she came from. Luckily for Aiyana, she soon meets a friendly face in the Raven, who pledges his support to help get her home, and the two set off to seek a renowned, mystical entity who can allegedly return her to the human world.

Mandy Smoker Broaddus is Montana's current poet laureate with nearly 20 years' experience working toward social justice, equity, inclusivity and cultural responsiveness, particularly in the realm of American Indian education.

MARVEL VALUE STAMPS: A VISUAL HISTORY HC

(W) Roy Thomas
In 1974, Marvel Comics publisher Stan Lee devised an ingenious promotional campaign — Marvel Value Stamps, which appeared on the letters pages of their monthly comics. Readers could cut out all 100 of these super hero and super villain stamps and place them in a special mail-order booklet. Once complete, these stamp books could then be redeemed for special discounts and exclusive merchandise. The program was so successful, a second set was released in 1975. And now, for the first time, these original stamp books, stamps, and all of the surrounding ephemera and source material are collected into one must-have volume for collectors and fans, along with text from Marvel Comics historian Roy Thomas. CLOUD TOWN GN

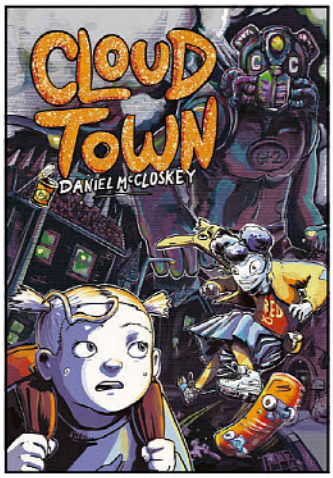
(W/A) Daniel McCloskey



In Dan McCloskey's debut graphic novel, best friends Pen and Olive live in *Cloud Town*, an impoverished community on Floating Island, a mysterious landmass that drifts above the earth and happens to sit dangerously close to the Rip—a tear in the fabric of the universe. While Pen is brash and brave, Olive is quiet, kind, and also fearful of bullies at school. That is, at least until the day they are nearly squashed by a Care Corp Storm Catcher, a giant android built to protect Cloud Town and the rest of Floating Island from Hurricanes, monsters that travel across the Rip. It isn't the event itself that changes the girls' relationship. It isn't the fear of death that drives them apart, or the questionable decision-making that leads Pen to drag Olive into the cab of the crashed robot. It's the fact that Olive can move the 90-foot-tall machine and Pen can't. Care Corp recruits Olive to train as a pilot, so that she can protect Floating Island when the next attack comes. It's a role reversal, for which neither of the girls are prepared. (STL220539) (C: 0-1-0)

THE PRISONER OF SHIVERSTONE GN

(W/A) Linette Moore

In Linette Moore's debut, middle-grade graphic novel, eleven-year-old Helga Sharp is found unconscious in a drifting rowboat near the coast of Utley Island. Utley, as Helga finds out when she awakens in the hospital, is forbidden territory: it's a prison island to which the Mainland has exiled troublesome mad scientists for generations. The truth is, it's no accident that Helga landed here. She is a keen inventor, but the Mainland is suspicious of all scientists and inventors. While working on her projects in secret, Helga made radio contact with Erasmus Lope, a mad genius who everyone thought had died in a lab experiment gone spectacularly wrong. But Lope is alive, and Helga is on a mission to rescue him from the prison island. Now Helga must find a way to break Lope out, right under the noses of the family of famous heroes that run Utley Island. TIN MAN GN

(W/A) Justin Madson

In Justin Madson's debut graphic novel, *Tin Man*, a girl and her brother befriend the titular Tin Man with unexpected results. Solar is in her last year of high school and is reeling from the recent death of her grandmother. She has abandoned her plans for the future and fallen in with a bad crowd. Her little brother, Fenn, doesn't understand why she's changed—she doesn't even want to help him build their rocket in the garage anymore. Campbell is a tin woodsman—a clunky metal man whose sole purpose in life is to chop down trees. He longs for more, however, and decides to seek out a heart, believing that, with one, he will be able to feel things he has never felt before and, therefore, change his life. (STL220541) (C: 0-1-0)

MY FIRST PANDEMIC GN

(W/A) Jamison Odone
My First Pandemic is a collection of drawings, thoughts, poems, comics, anger, happiness, life, and death from a difficult period in our history. Over the last two years, between crises and quarantines, Jamison has had time. Time to reflect, to page through old books of poetry, to draw hundreds of rabbit people — for some reason. The loss of a stepfather, followed by the loss of a good friend, gives cause to contemplate one's own mortality. It's strange how the thoughts of 19th-century poets can echo our own. What will we leave behind when our time comes? Sadness, sure, but also wee, silly drawings in honest-to-goodness paper and ink. (STL220657) (C: 0-1-1)

HECATE'S WILL TP

written & illustrated by **IOLANDA ZANFARDINO**

$17.99 | 144 pages | Mature

In HECATE'S WILL, we meet legendary NYC graffiti artist Hecate, who is facing burnout & despair and has decided to retire, abandoning her dream of changing the world through art.

But, before she quits, she's going to create one final street-art experience: a graffiti scavenger hunt through the streets of Manhattan that will lead her fans to a final message and artistic testament.

As her street-art experiment catches fire with young NYC artists and activists, Hecate's best friend ropes her into working on a revival of the musical 'RENT' by a joyous ensemble of LGBTQIA+ artists who remind her how art brings people together, challenging all of Hecate's expectations and assumptions. But will it be enough to inspire Hecate to renew her convictions and remain true to her artistic self?

As Iolanda describes the book: *"HECATE'S WILL is a story for anyone who knows that making Art means proudly showing your scars to the world."*

With HECATE'S WILL, **Iolanda Zanfardino** ***(Alice In Leatherland, A Thing Called Truth)*** has created a character struggling against creative burnout, isolation, and heartache. Hecate's true nemesis is despair itself--she just might be the very hero we need right now.

PRAISE FOR HECATE'S WILL

"This comic is gonna shatter your comfort zone with a story that feels like truth and shines as fiction. The scars showed here were ones that I instantly recognized and connected with, and I can only recommend you let them move you."

LADY-BIRD TP

(W) Fabrice Sapolsky, Dawn J. Starr
(A) Daniele Sapuppo (CA) Lissa
Two young women, with extraordinary powers, living 100+ years apart, have to find the way to break free! A poignant story with a dash of Anime flavor! In 1911, a very shy and naive young woman named Vega De Ortega is touring Europe as the "*Lady-Bird*", going from city to city, from circus from circus, bringing joy to people of all ages. Though she's a lighter-than-a-feather celebrity, she is uncomfortable with everything happening around her. Her benefactor, Count San Remo, has convinced her to become a weapon of War. Unhappy and afraid, she has to free herself. In 2022, Mina is a prisoner. Every day a nurse comes to take samples of her blood and use it as currency for a pharmaceutical company. She has no idea who she is, or why she's even being kept captive. She just knows she's being moved around often, to places she doesn't know anything about. She's also told she can't take off her helmet or she'll die. But an earthquake gives Mina an opportunity to escape and discover her true identity and potential... as a "*Lady-Bird*"! Two *Lady-Birds*. Two eras. Same incredible powers: They can fly and their genes are unlike any other known being on the planet. Who are they? And what is their connection? (STL220995) (C: 0-1-2)

In these five collected short stories, carnivores and herbivores meet at a congress of the animals. With singular humor and charm, Anna Haifisch tells of the everyday struggle from the prairie to the drawing table, of self-imposed isolation and friendship. At the end of the day, there is hope, even for crying weasels. Printed in five gorgeous Pantone inks, *Schappi* will shine from a bookshelf like a mad husky's iris.

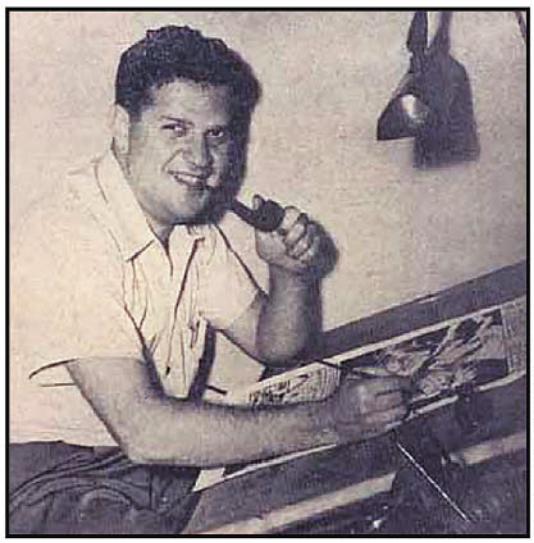
A Creator You Should Know: JACK KAMEN



© William M. Gaines, Agent, Inc.

After his initial work for EC Comics, which came at the end of their "Pre-Trend" era on the final two issues of *Modern Love*, Jack Kamen quickly made himself a vital component of the company's "New Trend" efforts. He illustrated the very first "Old Witch" story (written by Al Feldstein) in *Haunt of Fear* #2 (#16/2) and frequently contributed to *Crime SuspenStories* and *Shock SuspenStories*. His classic "Squeeze Play" cover for *Shock SuspenStories* #13 (May 1954) was for Frank Frazetta's only solo story at EC, and he also provided covers for the final three issues of *Crime SuspenStories*. Outside of his EC work, Kamen was known as one of the top "good girl" artists for his popular covers on Fox's *Zoot* and *Rulah* and Four Star's *Brenda Starr*, and he turned this to his advantage when his sexy "Kamen Girls" worked well for the *Crime* and *Shock* series. In addition, his art was seen in the George Romero – Stephen King film *Creepshow*, and on the cover of the *Creepshow* graphic novel.

Yet somehow he always manages to explain away his behavior and to convince Sophie that it's all in her head. Sophie comes to realize that she's become trapped in a cycle of abuse with someone with narcissistic personality disorder. Li-Zhen's life on the archipelago is simple. Known to friends and family as Lizzy, she takes care of her grandfather and their goats, she flirts with the woman who helps row the ferry, and she stays away from the fog that comes in the night—and the monsters hiding within it. But Lizzy's life comes apart when she steals a handful of coins from a sacred well to cover a debt. The well requires repayment, but it doesn't deal in coins. It needs wishes, and its minions will drown Lizzy in its depths if she doesn't grant them. Lizzy finds herself on a quest to uncover hidden memories, bestow great wealth, and face the magical secrets that nearly destroyed her family—and are now returning to threaten everything she has ever known. TEN DAYS IN A MAD-HOUSE GN

(W) Brad Ricca (A) Courtney Sieh

Beautifully adapted and rendered through piercing illustrations by acclaimed creators Brad Ricca and Courtney Sieh, Nellie Bly's complete, true-to-life 19th-century investigation of Blackwell Asylum captures a groundbreaking moment in history and reveals a haunting and timely glimpse at the starting point for conversations on mental health. While working for Joseph Pulitzer's newspaper in 1887, Nellie Bly began an undercover investigation into the local Women's Lunatic Asylum on Blackwell Island. Intent on seeing what life was like on the inside, Bly fooled trained physicians into thinking she was insane—a task too easily achieved—and had herself committed. In her ten days at the asylum, Bly witnessed horrifying conditions: the food was inedible, the women were forced into labor for the staff, the nurses and doctors were cruel or indifferent, and many of the women held there had no mental disorder of any kind. BLACK PANTHER: SHURI & T'CHALLA: INTO THE HEARTLANDS GN
(W) Roseanne A. Brown & Various
(A/CA) Claudia Aguirre
An original Black Panther graphic novel! Twelve-year-old Shuri is a lot of things. Scientist. Princess. All around cooler person than her pain-in-the-butt big brother, T'Challa. Shuri knows she could do so much more to help Wakanda, but everyone is obsessed with the prince because he's the next Black Panther. That is, until Soul Washing Day, one of the most important rituals of Wakandan society. When an argument between T'Challa and Shuri leads to one of Shuri's inventions accidentally destroying the sacred ceremony site, chaos reigns instead of prosperity. Suddenly the people of Wakanda, including her mother the queen, are becoming sick! Could this be a curse from the ancestors? If Shuri and T'Challa can set aside their jealousy and resentment of each other long enough to survive a journey in the Heartlands to investigate an ancient myth that might hold the cure, they might just discover that they are far more powerful together than they could ever be apart. It's been fifty years since a sun shift wiped out nearly all mammal life across the earth. Towns and cities are abandoned relics, autonomous machines maintain roadways, and the world is slowly being reclaimed by nature. Isolated pockets of survivors keep to themselves in underground sites, hiding from the lethal sunlight by day and coming above ground at night. 10-year-old Elvie and her caretaker, Flora, a biologist, are the only two humans who can survive during daylight because Flora made an incredible discovery – a way to make an antidote to sun sickness using the scales from monarch butterfly wings. Unfortunately, it can only be made in small quantities and has a short shelf life. Will they discover a way to go from a treatment to a cure and preserve the remains of humanity, or will their efforts be thwarted by disaster and the very people they are trying to save? (C: 0-1-1)

RALPH AZHAM VOLUME 1: BLACK ARE THE STARS GN

(W/A) Lewis Trondheim

From the award-winning mind of cartoonist Lewis Trondheim comes the expansive and rich anthropomorphic medieval world of Ralph Azham. After failing the test of the Chosen One as a young duck, Ralph had a tough time growing up as the village pariah, often getting into trouble due to an innate extra sense that's rather unbelievable, embarrassing, and unfortunate. That was only compounded by the constant visit of spirits that only he, Ralph, could see. Cut to today, his village is threatened by a vicious Horde, an apocalyptic flood may take the life of Ralph's only supporter, his father, and the Wise Men's Counsel are out for Ralph's hide after rumors he had seduced one of their daughters. Ultimately Ralph must leave the village and unlock the secrets of his childhood as he journeys to the Kingdom of Astolia, but not before he takes a young ward, Raoul, who bears an uncanny similarity to Ralph. It's a sprawling story of fathers and their sons, magic, mysticism, with plenty of action, adventure, and signature Trondheim madcap humor. (C: 0-1-0)

FRANCIS BACON HC

(W/A) Cristina Portolano
The story of Francis Bacon's life is as complex, colorful, and highly charged as his paintings. Drawn in shades of mauve, red, yellow, and blue that distinguished his palette, these illustrations weave together a troubling but compassionate narrative, one that draws on the tragic events of Bacon's childhood and youth, as well as reflecting the profoundly passionate yearnings of the artist he became. Separated into thematic and chronological sections the novel highlights the prevailing influences of Bacon's life and times: his early autodidacticism and estrangement from his family; his struggles to make his way as a surrealist painter and his destruction of his early work. PS ARTBOOKS: EERIE COMICS #1 MAGAZINE

(A) Joe Kubert & Various

It was January 1947 that the first real, indisputable horror comic came along—*Eerie Comics* #1, published by Avon. It had a striking cover that was, well... *eerie*, depicting a strange-looking man with a knife on the steps of some sort of ruin, approaching a bound woman, a theme that was to be repeated countless times in the future... Whet your appetite on these horrors inside including "The Eyes of the Tiger" by Bob Fujitani featuring a pet tiger who gets his first taste for blood; no surprises there then? "Dead Man's Tale" by Jon Small gives us the story of a bottle that gave Myron Morgan wealth and how he died when it was destroyed. "The Man-Eating Lizards" by Joe Kubert, when a plane goes down in the ocean, the surviving crew members find themselves on an island of giant, man-eating lizards. It's hard to point to a particular source or inspiration, such as radio or the pulps, for any of these stories as they were not adaptations and didn't come from any existing series, yet here they are, together as probably the world's first true horror comic! THE LIFE AND ART OF DAVE COCKRUM
(W) Glen Cadigan (A/CA) Dave Cockrum
From the letters pages of Silver Age comics to his 2021 induction into the Will Eisner Hall of Fame, the career of Dave Cockrum started at the bottom and then rose to the top of the comic book industry. Beginning with his childhood obsession with comics and continuing through his years in the Navy, *The Life and Art of Dave Cockrum* follows the rising star from fandom (where he was one of the "Big Three" fanzine artists) to pro-dom, where he helped revive two struggling comic book franchises: the *Legion of Super-Heroes* and the *X-Men*. A prolific costume designer and character creator, his redesigns of the Legion and his introduction of X-Men characters Storm, Nightcrawler, Colossus, and Thunderbird (plus his design of Wolverine's alter ego, Logan) laid the foundation for both titles to become best-sellers. His later work on his own property, *The Futurians*, as well as childhood favorite *Blackhawk* and *T.H.U.N.D.E.R Agents*, plus his five years on *Soulsearchers and Company*, cemented his position as an industry giant. Featuring artwork from fanzines, unused character designs, and other rare material, this is THE comprehensive biography of the legendary comic book artist, whose influence is still felt on the industry today! OLD GODS & NEW: A COMPANION TO JACK KIRBY'S FOURTH WORLD TP

(E) John Morrow

Spanning the pages of four different comics starting in 1970 (*New Gods*, *Forever People*, *Mister Miracle*, and *Jimmy Olsen*), the sprawling "Epic for our times" was cut short mid-stream, leaving fans wondering how Jack would've resolved the confrontation between evil Darkseid of Apokolips and his son Orion of New Genesis. This companion to that "Fourth World" series looks back at Jack Kirby's own words, as well as those of assistants Mark Evanier and Steve Sherman, inker Mike Royer, and publisher Carmine Infantino, to determine how it came about, where it was going, and how Kirby would've ended it before it was prematurely cancelled by DC Comics! It also examines Kirby's use of gods in *Thor* and other strips prior to the Fourth World, how they influenced his DC epic, and affected later series like *The Eternals* and *Captain Victory*. Listening to weird records, earwigs, trick or treating, and smelt, *The Collected Prairie Pothole* includes all 28 of these classic four-panel newspaper-style strips, plus bonus material (STL219504)

SPIDER-MAN: A HISTORY HC

(W) Rich Johnson

Spider-Man explores the phenomenon of one of Marvel Comics's most popular and relatable nerdy science-kid-turned-superhero with the 30 most significant and influential Spidey stories and including relevant spinoffs and ancillary comic book events. Rich Johnson documents this story with countless comic book images, film stills, and storyboards: how Peter Parker became Spider-Man; costume and character story changes over the decades; the influence of Spidey on all other comic book characters; classic Spidey nemeses like Doc Ock, Green Goblin, and Venom; contemporary stories like the Avengers crossovers, Miles Morales, Spider-Gwen, and the Spider-Verse; and how Spider-Man comics have been so influential on and relevant in today's comic book (and superhero film) culture. The book contains more than 200 illustrations, including covers, interior comic art, and sketch treatments, beginning with his inception in the early 1960s to present-day treatments of the character. JEFF LEMIRE: CONVERSATIONS SC

(A) Jeff Lemire

Many cartoonists deflect from questions about one's history with comics and the influences of other artists, while others indulge the interviewer briefly before attempting to steer the questions in another direction. But Jeff Lemire, creator of *Essex County* Trilogy, *Sweet Tooth*, *The Nobody*, and *Trillium*, seems to bask in these discussions. Before he was ever a comics professional, he was a fan. In the twenty-nine interviews collected in *Jeff Lemire: Conversations*, readers see Lemire come to understand the process of collaboration, embrace a variety of genres, using each of them to explore the issues and themes most important to him. And we see a cartoonist and writer growing in confidence, a working professional coming into his own. (STL219505) (C: 0-1-1)

STILL JUST A GEEK: AND ANNOTATED MEMOIR HC

(W) Wil Wheaton
From starring in *Stand by Me* to playing Wesley Crusher on *Star Trek: The Next Generation* to playing himself in his second (third?) iconic role of Evil Wil Wheaton in *The Big Bang Theory*, to becoming a social media supernova, Wil Wheaton has charted a career course unlike anyone else, and has emerged as one of the most popular and well-respected names in science fiction, fantasy, and pop culture. In *Still Just a Geek*, Wil revisits his 2004 collection of blog posts, *Just a Geek*, filled with insightful and often laugh-out-loud annotated comments, additional later writings, and all new material written for this publication. The result is an incredibly raw and honest memoir, in which Wil opens up about his life, about falling love, coming to grips with a stagnant career he did not choose, overcoming and healing childhood abuse, and the search for creative and emotional fulfillment as a storyteller. Wil Wheaton's journey is an inspiring and empowering tale, a story of finding one's true purpose that should resonate with fans and aspiring artists alike.
